Why Organic?

- Eliminate or reduce preservatives
- Produce more intense, realistic flavors in food
- Embrace an organic philosophy of gardening that supports the ecosystem!

Just in time to plan your organic fruit or vegetable garden!

Join Garden Coach Kate Donovan and Master Gardener Eric Bromberg from Blackstone Veggie Gardens.

* Control your own soil and fertilizer inputs by replacing manmade ones with those derived from natural sources

*Learn how to develop and design an organic approach to your gardening plans

Attend all 4 sessions of the *2019 Grow Food Series* from Blackstone Veggie Gardens, presented at the Auburn Public Library
